

Interior Design, Housing and Furnishings **May 11-12, 2010, San Francisco**

Housing meets the basic need for shelter and has a deep and lasting effect on our lives. The economics of housing decisions, energy efficiency, design elements and sensible functional furnishings are some of the topics to be addressed in this workshop. Maintaining functional living and work spaces, universal design and meeting needs at various stages of the life cycle will be discussed as well as careers in this field. The FHA-HERO Interior Design Competitive Recognition event will also be featured.

Highlights

- Understanding factors affecting housing choices
- Planning functional life spaces
- Using the elements and principles of design
- Choosing furnishings, textiles and surfaces
